is one of the publishing industry's leading distributors, providing a comprehensive and impressively high-quality range of fulfilment and print services, online book reading and download.

### **Continental Aircraft Engine O 470**

The Continental O-470 engine is a family of carbureted and fuel-injected six-cylinder, horizontally opposed, air-cooled aircraft engines that was developed especially for use in light aircraft by Continental Motors. Engines designated "IO" are fuel-injected. The family also includes the E165, E185, E225 and the E260 engines, and several specialty variants. It has been in production since 1950.

The O-470 is a rugged engine that's capable of producing solid and dependable power. It distinguishes itself from other six-cylinder carbureted engines by its characteristic lope at idle and throaty exhaust stack burp. When balanced, an O-470 will run at cruise power without the least bit of burble or vibration.
